

# Free Workshop: “Economically and Environmentally Sustainable Subtidal Shellfish Aquaculture Techniques”

**Saturday, May 5, 2012: 9 AM – 5 PM**  
**Provincetown Center for Coastal Studies**  
**Marine Lab, 5 Holway Avenue, Provincetown**

Supported by the Cape Cod Economic Development Council

Featuring presentations by local shellfish growers, scientists, and County and State officials on a variety of topics including subtidal shellfish culture techniques, shellfish aquaculture management, marketing, preventing marine animal entanglement, food safety/health, and scientific research.

**To Register: Please Contact Owen Nichols**  
**(508 487 3623 x128 – nichols@coastalstudies.org)**

**Directions To PCCS Marine Lab at 5 Holway Avenue:**

- Take Route 6 towards Provincetown.
- From Rt. 6 take a left at the Conwell Street Exit (it has a stop light and is your second "entrance" to Provincetown).
- At the end of Conwell Street, turn right onto Bradford Street.
- Go approximately one mile, and at the top of the hill (just before the Crowne Point Inn), take a right on Prince Street.
- Take your first right at the parking booth (town-paid parking lot). Drive straight towards the stop sign.
- Turn Left. Park at the farthest end of the lot, across from the high school.
- The marine lab is the building BEHIND the church parish hall. It cannot be seen from the parking lot.
