BAKER'S RACK \$50

FREE GREEN COUCH - It's free because I had to disassemble it (remove the back panel) to get it into my apartment, and, if you want it, we will have to do the same to remove it. So, there is some upholstery on the back of the couch that is not attached. A crafty person with a staple gun could reattach the upholstery, use a couch cover like in the picture (blue), or just keep it against the wall. You can see where the upholstery was removed in the second picture. See ad for details.
