Description: A white with black trim 18-foot Victoria Sloop. It is a wonderful day sailing vessel with the feel and stability of a large boat, while sailing like a smaller boat. It 550 lbs. of lead ballast (46% of the weight) stabilizes it so it is very hard to capsize. It has not been sailed or in the water since summer 2017 and has been stored on its trailer under shrink wrap. Boat purchased from original owner in 2014 near Trenton, NJ. Comes with original trailer (both tires replaced in 2017). No outboard motor.
