

Dear Woods Hole parents,

Our son Abel (14) would be interested to start a language and cultural exchange with a US kid around his age. We are a French family with 3 children. Abel has a little brother Marius (10), and a little sister Jeannon (6). We live in a house in Nantes, a beautiful city near the coast and 2 hours from Paris by train.

Abel plays soccer in a team, likes basketball too, listen to rap music and reads manga. He has been learning English since he was 11 and is currently learning Chinese at school too.

We would be very glad to start a language exchange and welcome a kid from an American family of Abel's age during holidays or school time in our family. He/She could discover life in France, while both could practice a foreign language.

Don't hesitate to contact us if you like this idea, we are looking forward to meeting you.

All the Best

Marine & Vincent"
