

Naomi F., 10th grade, Nauset Regional High School, Eastham, MA

## Dunes stand up to storms, **NOT YOUR FEET.**

### Dunes and dune plants...

can slow erosion and provide habitat for wildlife, including rare birds.

are the first line of defense against storm waves and flooding.

trap wind-blown sand to build and stabilize the dune.

have adapted to tolerate harsh coastal conditions, but NOT feet!

# Southborough

Lillian B., 7th grade, Trottier Middle School, Southborough, MA
