WHSTEP Mini-Grant Program

The WHSTEP Mini-Grant Program provides seed money for new projects that support and promote science, technology/engineering, and math education. WHSTEP Mini-Grants are intended to create opportunities not ordinarily funded by the schools.

Proposals will be reviewed using the following criteria:

- Does the plan for instruction demonstrate hands-on or inquiry-based teaching and learning?
- Are science, technology and/or mathematics concepts, or the application of the principles of science/technology/mathematics, a strong component of this project?
- Does this project demonstrate the capacity to become self-sustaining?

Projects will be funded in the range of \$250–\$500 per year; consideration will be given to a request for a one-year renewal. WHSTEP mini-grants are funded on a *reimbursement basis*, meaning that the recipient incurs the expenses and invoices WHSTEP. Original receipts or invoices are required, and payments will be made in a timely manner. If reimbursement forms are not received within 3 years of the reward letter, recipients may be asked to reapply for the Mini-Grant.

WHO MAY APPLY?

- Teachers in all Falmouth, Bourne, and Mashpee schools (public and private)
- Persons from a member institution/agency, business, parent-teacher organization, or community member partnering with a teacher in one of the member schools

WHEN?

Applications can be submitted at any time, but will be reviewed **two times per year**.

DEADLINES: Applications must be received by 5 p.m. on the following dates: **March 29, 2024 or November 29, 2024** to be considered for that round of funding. Proposal review and notification will take place within 4 weeks of the deadlines.
