Reception to follow

Anjali will share the inspirational story of her rescue after being trafficked at age 12 and enslaved in a brothel for three years. Her determination to help other girls and women like her inspired her to found a school and NGO in her rural Nepal community. Sarah is founder of U.S. based *Her Future Coalition* (formerly Made by Survivors), and works to support Anjali's organization and helps thousands of other survivors and at-risk girls in India, Nepal, and Kenya. WHOI employees, past and present, and Falmouth Rotarians have spearheaded local support for anti-trafficking through these programs.
