

SAILING, SCIENCE, AND LIFE ABOARD SEA'S TALL SHIP, THE SSV CORWITH CRAMER

TUESDAY, MAY 26, 5:30-7PM

DYER'S DOCK, WOODS HOLE, MA

Free community event. Students, teachers, scientists.. everyone welcome!

**SPACE IS LIMITED!
SIGN UP HERE
TO SECURE
YOUR SPOT:**

Join WHSTEP and SEA for a dockside Family Science Night on board the Corwith Cramer. Participate in several hands-on learning stations while alongside the pier: practice how to set and strike a sail, learn the mechanics of steering a ship, and keep yourself (and your shipmates) safe. Meet SEA's science team, work with oceanographic equipment, and explore samples collected at sea during a recent voyage. Deploy one of our nets from the deck and explore the mysterious world of marine plankton under the microscope. Head down below-deck and see where SEA students and crew sleep, eat, and socialize!
