

Making Connections

Physiology 2018

1 CONNECTING TO WORKSTATIONS

The workstations are general-purpose computers open to anyone in the course.

Username: `mbluser`

Password: `mblpass`

2 CONNECTING TO PHYSIOLOGY SERVER

CONNECTING ON A MAC

Finder, Go, Connect to Server <smb://courses.mbl.edu/phy>

Username: `MBLAD\pp87925`

Password: `pp87925`

CONNECTING ON WINDOWS

Go to File Explorer

Right-click on Network in the folder navigation pane

Click on the Map Network Drive option

Connect to the server: <\\courses.mbl.edu/phy>

If you need a username and password try:

Username: `MBLAD\pp87925`

Password: `pp87925`

3 CONNECTING TO WI-FI

You should generally use the guest network. If your home institution uses `eduroam`, you should be able to connect devices that way as well.

3.1 CONNECTING TO THE GUEST NETWORK

Username: `MBL-GUEST`

Password: `mblguest`

3.2 CONNECTING TO THE REGISTERED NETWORK

Use for access to course share and printer

Open a browser and you will be redirected to the page below:

<http://nac.mbl.edu>

Your username and password are the first initial of your given and surname followed by the 5-digit code on your MBL ID badge.

Username: ab12345

Password: ab12345

After pressing "Accept" you should be logged in.

4 CONNECTING TO PRINTERS

You must be connected to the MBL Registered Wi-Fi network or MBL Registered wired network.

4.1 PRINTER IN THE OFFICE

Use this address and name when connecting to the printer in Loeb 352.

IP address: 10.225.3.220

Printer name is: PHYPR1

4.2 PRINTER IN THE BREAKROOM

Use this address and name when connecting to the printer in the kitchen/breakroom. Generally, if you are a student or TA, it is recommended to print to the printer in the kitchen/breakroom.

IP address: 10.225.3.216

Printer name is: PHYPR2

4.3 SECOND-FLOOR PRINTER/SCANNER

To use the printer, save data as a pdf and bring it down to the printer in a memory stick. Get the printer code from the course assistants.

4.4 CONNECTING ON A MAC

On Mac press the "+" in the Printers & Scanners window

Select Add Printer or Scanner...

Select the "IP" tab

Type in the IP address in the "Address" box.

The printer should be recognized

Press "Add"

4.5 CONNECTING ON A PC

From the Start Menu, search for Printers & scanners

Alternatively, go to Settings > Devices > Printers & scanners

Select Add Printer or Scanner

The printer should appear on the list.

If it does not, click: The printer that I want isn't listed

Select: Add a printer using a TCP/IP address or hostname
Type in the IP address of the printer and the port number (9101) when required.
